Subject: NCHGW Meeting

We are currently set for our meeting on the 20th but unfortunately GTOSI/Osram, DOE and Vishay folks are not able to make it on the 20th. The GTOSI/Osram and DOE folks are actually having a mediation on their respective liability for the old Sylvania property on that date. It is possible that they can send someone from their respective offices but it would be better to have the knowledgeable players at the table. Don't know why the Vishay folks can't make it. In any event, at least GTOSI/Osram and the Vishay folks are available on 8/18. I just asked Kevin Maldonado to check on who we would lose from the other folks if we changed the meeting to the 18th. I will also check with DOJ/EDNY but in any event, are you all available on the 18th? Let me know.

I sent the letter out asking for written comments by 8/13.

Let me know your availability for the 18th.

Sharon
